

# Student Council Elections

Dear students,

After much delay, the Student Council is finally holding school-wide elections for its two student body elected positions: president and vice president. Students elected to these positions serve leadership roles not only in Student Council, but for the entire school: they communicate with administration, connect with students, and work closely with clubs and faculty in order to both uphold West values and improve our community. They also plan dances.

Each candidate is held in good favor with Student Council; these candidates have worked hard in years past, showing their dedication to West and its students, and would do well in the elected role. Each candidate has shared a bit about themselves as well as their aspirations for West in a short campaign video. Students are encouraged to watch the videos (below) and inform themselves before voting, just as they would before casting any kind of vote. Elections are being held this week, and you can vote using the ballot below:
